CARDIAC ELECTROPHYSIOLOGY SOCIETY

Annual Meeting Saturday, November 13, 2010

Hilton Chicago 720 S. Michigan Avenue Chicago, Illinois

Cardiac Tissue Engineering: From Channel to Syncytium

4:45-5:10 5:10-5:35 5:35-5:50 Session III: 6:15-6:40 6:40:6:50	"Myocardial Tissue Engineering" Dr. Kevin Parker, Harvard University, Cambridge, MA Discussion Cells for Repopulating the Diseased and Damaged Myocardium Chairs: Dr. Henry Duff, Libin Cardiovascular Institute of Alberta, Calgary, Canada and Dr. Peng-Sheng Chen, Krannert Institute of Cardiology, Indianapolis, IN "iPS Cell Derived Cardiomyocytes" Dr. Timothy Kamp, University of Wisconsin, Madison, WI "Engineered Cell Grafts" Lior Gepstein, Technion - Israel Institute of Technology, Haifa, Israel Discussion Concluding Remarks, Dr. Denis Noble
4:45-5:10 5:10-5:35 5:35-5:50 Session III: 6:15-6:40	Dr. Kevin Parker, Harvard University, Cambridge, MA Discussion Cells for Repopulating the Diseased and Damaged Myocardium Chairs: Dr. Henry Duff, Libin Cardiovascular Institute of Alberta, Calgary, Canada and Dr. Peng-Sheng Chen, Krannert Institute of Cardiology, Indianapolis, IN "iPS Cell Derived Cardiomyocytes" Dr. Timothy Kamp, University of Wisconsin, Madison, WI "Engineered Cell Grafts" Lior Gepstein, Technion - Israel Institute of Technology, Haifa, Israel
4:45-5:10 5:10-5:35 5:35-5:50 Session III: 6:15-6:40	Dr. Kevin Parker, Harvard University, Cambridge, MA Discussion Cells for Repopulating the Diseased and Damaged Myocardium Chairs: Dr. Henry Duff, Libin Cardiovascular Institute of Alberta, Calgary, Canada and Dr. Peng-Sheng Chen, Krannert Institute of Cardiology, Indianapolis, IN "iPS Cell Derived Cardiomyocytes" Dr. Timothy Kamp, University of Wisconsin, Madison, WI "Engineered Cell Grafts"
4:45-5:10 5:10-5:35 5:35-5:50 Session III: 5:50-6:15	Dr. Kevin Parker, Harvard University, Cambridge, MA Discussion Cells for Repopulating the Diseased and Damaged Myocardium Chairs: Dr. Henry Duff, Libin Cardiovascular Institute of Alberta, Calgary, Canada and Dr. Peng-Sheng Chen, Krannert Institute of Cardiology, Indianapolis, IN "iPS Cell Derived Cardiomyocytes"
4:45-5:10	Dr. Kevin Parker, Harvard University, Cambridge, MA Discussion Cells for Repopulating the Diseased and Damaged Myocardium Chairs: Dr. Henry Duff, Libin Cardiovascular Institute of Alberta, Calgary, Canada and Dr.
4:45-5:10 'S' 5:10-5:35 'S' 1	Dr. Kevin Parker, Harvard University, Cambridge, MA
4:45-5:10 ° 5:10-5:35 °	•
4:45-5:10 °	Dr. Christine Albert, Brigham and Women's Hospital, Boston, MA
	Chairs: Dr. Natalia Trayanova, Johns Hopkins University, Baltimore, MD and Dr. Frank Bogun, University of Michigan, Ann Arbor, MI "Arrhythmias and Aging" Dr. Christing Albert, Brighers and Women's Hospital, Boston, MA
Session II:	Age and Acquired Myocardial Damage
	Refreshment Break
1	MicroRNAs and Arrhythmias Dr Vasanth Vedantham, University of California, San Francisco Discussion
]	"Ion Channel Remodeling in Disease and Arrhythmias" Dr. Dobromir Dobrev – University of Heidelberg, Heidelberg, Germany Micro DNA a and Arrhythmias
2:45-3:10 °	"The Clinical Spectrum of Inherited Ion Channel Dysfunction" Dr. Arthur Moss, University Rochester Medical Center, Rochester NY
	Dr. Dan Roden, Vanderbilt University School of Medicine, Nashville, TN and Dr. Arthur Wilde, University of Amsterdam, Amsterdam, The Netherlands
Session I:	Cells and Channels
]	"Successes and Failures in Modeling Cardiac Electrophysiology" Dr. Denis Noble, Ph.D., University of Oxford, Oxford, UK Discussion
	Business Meeting: Drs. William Stevenson, José Jalife and Charles Antzelevitch 21st Gordon K. Moe Lecture
12:30-1:30	Poster Competition Registration / Lunch and Refreshments

Supported by an educational grant from Medtronic, Inc.
